# EXHIBITIONS & DISPLAYS

Sometimes it's not just what you say, it's how you look when you're saying it.

Our new Exhibit range gives you the tools to emphasise your message. For the first time, create enormous eye-catching displays... without the eye-watering price tag.

We've invested in the very latest, high-end, direct-to-fabric printing technology – the first of its kind in Ireland. Our state-of-the-art production hub employs talented seamstresses and technicians, ready and skilled to turn your ideas into a wonderful fabric reality.

Seeing is believing. Drop by your neighbourhood Nettl studio to goggle at the samples and talk through options.

Make the most of your next exhibit.

*Let's go!*

# DISPLAY STANDS

All our freestanding displays are highly portable. Clip together the frames, then pull over the fabric graphic.

Use at networking meetings, exhibitions or for in-store point-of-sale displays.

When it's over, dismantle in minutes and be on your way again – each comes with a carry case.

## HOW FABRIC DISPLAYS WORK

**Fabric Displays** are made up of two main components – a strong, lightweight, tubular aluminium frame and a printed fabric cover.

The 260gsm 'stretch' fabric cover is printed on both sides as standard. Designed to fit snugly over the frame, it is secured at one edge with a zip fastening. The fabric cover is changeable and additional covers can be ordered separately.

These 'next generation' displays deliver maximum impact and completely eliminate the problem of visible join lines on larger displays.

Fabric Display frames utilise a simple 'click together' mechanism.

Each part is numbered for easy identification and quick assembly.

Stretch the fabric graphic over the frame and zip up.

All Fabric Display frames are supplied with a carry bag for easy transportation and storage.

Each stand clicks together in a few minutes and then simply stretch over the printed fabric graphic.

These new wooden deck chairs are perfect for festivals or fetes. Create a relaxed environment for punters to laze around and eat or drink more. Responsibly, natch.

The seat is printed in high-definition, using a special process. The ink actually goes right into the material, rather than sitting on top. Then it gets baked into the fabric itself. That means you won't be having an awkward conversation when your logo is reverse branded onto your customer's new white jeans.

Turn any corridor or communal area into a mini art gallery with beautiful fabric boxes.

## DOUBLE-SIDED

Have a different message on each side of the flag, or show the same message on both sides – we put a blackout divider in between to prevent showthrough.

## VENT WEAVE

For more exposed environments, opt for a single-sided vent material which allows maximum air to pass through.

# ROLLER BANNERS

These portable **Roller Banners** are ideal for indoor exhibitions and permanent office displays.

Choose from either economic 440gsm PVC poster or 410gsm greyback Opaque film material which prevents light from passing through and minimises curling on the sides.

Both substrates are printed using latex inks which gives them a scratch, UV and water resistant finish.

# PVC BANNERS

These **PVC banners** are designed for outdoor use, but can be used indoors too.

**Screen** banners are finished with eyelets, so you can tie them to railings or goal posts or hoardings. Just use cable ties. They roll up easily and can be reused.

Alternatively our new **Exposure** banner stand has a water-filled base which you can clip the supplied poster to.

Both are printed using latex inks which give them a scratch, UV and water-resistant finish.
